

Personal Radiation Protection System (PRPS)

In recognition of this PRPS team effort, 80 Radiation Shield Team Decals were flown on the 5A.1 Mission. These decals will be mounted to form awards for all of the team members that contributed in the completion of this engineering design, manufacture and certification activity over the holidays in less than 30 days.

In addition, some individuals truly distinguished themselves to make this project a success. These individuals, listed below have been given special recognition in the form of a *Space Flight Awareness Team Award*. These awards were presented to the listed individuals on April 17, 2001 at 1:00pm in the Building 1, Room 920L Conference Room at the Director of Engineering, Mr. Frank Benz.

SFA Team Awardees

EC2/Brenda Lotz,
LMCO/Rajib Dasgupta,
EM/Richard Hill,
EX/George Parma,
EM/Larry Hoff,
EM/Glenn Piper,
EM/Rick Pokorski,
EM/Larry Quinn,
EC/Mark Schaefbauer,
SF/Vicki Vinci,
NT/Dwayne Cook,
NT/Michael Ling,
SN/Neal Zapp,
SN/Gautam Badhwar,
SN/Frank Cucinotta
Langley/John Wilson

This emblem was flown aboard STS-102 and has been mounted to High Density Polyethylene identical to that used in the ISS Radiation Shielding.

Presented to

NAME

In appreciation for the outstanding teamwork and effort put forth in delivering this Radiation Shield in less than 30 days from inception to delivery to KSC for flight.

Director, JSC

Director, Engineering
